INTRODUCTION

The reason for our selling is that my health has been poor. We are pleased to be joined by Mike DeRoo to make this a complete dispersion of two herds that have been officially classified by the Canadian Shorthorn Association. Half of the cows selling are Classified AA.

We are sorry to part from our good Shorthorns for we have always considered them as a sound, stable and profitable enterprise.

A lot of our cows have been bred up from two Richardson cows Kelburn Victoria 4th by Calrossie White Emblem and Kelburn Clipper Beatrice by the Perth Champion Crieffvechter Empire and out of Muirside Clipper Beatrice (imported) from which originated all the "Clipper Beatrice" family, one of the Breed's outstanding strains.

Herd Sires used at Silverline Farm:

KILLEARN NORSEMAN 95th—(pictured above). This herd sire had been used successfully in the Falloon herds. He also bred very well for us, leaving bulls and heifers with size, bone and natural fleshing.

SEARLE MAX GLORIOUS 2nd—Paternal brother to Searle Max Paymaster by Killearn Begg. Searle Max Glorious 2nd is the herd sire that made John Inkster's herd famous. He sired two Manitoba Winter Fair Champions at Brandon—Balrossie Authority and Balrossie Mar Max. He weighed 2200 lbs. at eight years of age when we purchased him. He has left us a good string of cows with size, quality, smoothness and good milking ability. Nine of his daughters sell. At John Inkster's Dispersion six daughters averaged \$905.00.

KELBURN GALAXY—the son of Bapton Copyright (IMP) out of MUIRSIDE CLIPPER BEATRICE (IMP).

We hope that you can come to our sale and that you will like our cattle.

—Nap. Boulet.

LEVEL HEIGHTS SCOTCH SHORTHORN DISPERSAL

Shorthorns have done well for us. However, we now find it impossible to give our cattle the time they require so have decided to sell out.

This herd was established in 1926 by Raymond DeRoo. Good sires have been used consistently and the herd has always been in excellent health. We have never had a bull returned as a non-breeder. The cattle have never been pampered and they sell in good breeding condition. The cattle have had a blood test for Bangs this spring (1965) and were all negative. This is a T.B. Restricted Area.

While we have not been able to exhibit at Class A Fairs because of lack of time, we have exhibited at local fairs quite regularly and always did well.

Our offering consists of 21 Lots. There are sixteen Classified cows, eight of which are AA and seven are A. One first calf heifer had not calved at time of classification. There are fourteen yearling and two year old heifers together with our AA Herd Sire plus nine calves that sell at foot.

We wish to thank Nap. Boulet for letting us join with him to put on this worthwhile dispersal.

—M. J. (Mike) DeRoo.

KELBURN GREAT EVENT

Herd Sire for the Remitall Cattle Co., Olds, Alta.
